

CONTENTS – VOLUME 1

Preface	vii
---------------	-----

CHAPTER 1

INTRODUCTION TO SOLVENT EXTRACTION PROCESSING..... 1

1.1 INTRODUCTION	1
1.2 THE PRACTICAL PROCESS OF SOLVENT EXTRACTION	2
1.3 SOLVENT EXTRACTION THEORY	4
1.3.1 Systems Involving Compound Formation	5
1.3.2 Systems Involving Ion Association	23
1.3.3 Systems Involving Solvation	28
1.4 REFERENCES	30

CHAPTER 2

THEORY AND PRACTICE..... 33

2.1 EXTRACTION COEFFICIENT	33
2.2 EXTRACTANT CONCENTRATION	36
2.3 EFFECT OF pH.....	38
2.4 AQUEOUS PHASE COMPOSITION	42
2.5 METAL ION CONCENTRATION	45
2.6 SOLVENT LOADING CAPACITY	46
2.7 USE OF $pH_{1/2}$ VALUES	48
2.8 SCRUBBING	49
2.9 STRIPPING	50
2.10 SOLVENT PRE-TREATMENT	51
2.11 KINETICS OF EXTRACTION	53
2.12 SYNERGISM AND MIXED EXTRACTANTS	56
2.13 PRESENTATION OF DATA	57
2.13.1 Distribution Curves	57
2.13.2 McCabe-Thiele Diagrams	59
2.14 GENERAL COMMENTS	63
2.15 REFERENCES	66

CHAPTER 3

EXTRACTANTS 69

3.1 INTRODUCTION	69
3.2 REQUIREMENTS OF AN EXTRACTANT.....	70
3.3 GENERAL PROPERTIES	71
3.3.1 Extractants involving compound formation	71
3.3.2 Extractants Involving Ion Association.....	128
3.3.3 Extractants Involving Solvation.....	142
3.4 REFERENCES	157

CHAPTER 4	
DILUENTS AND MODIFIERS	185
4.1 INTRODUCTION	185
4.2 DILUENTS.....	186
4.2.1 Effects of Diluent Composition	186
4.2.2 General Requirements of A Diluent	190
4.2.3 Properties	191
4.2.4 Heavy Diluents.....	212
4.2.5 Choice of Diluent	215
4.3 MODIFIERS.....	215
4.3.1 Third Phase Formation.....	215
4.3.2 Modifiers.....	216
4.3.3 Modifiers and Fungus Growth	222
4.3.4 Diluent – Modifier Interaction	223
4.4 DISCUSSION.....	225
4.5 REFERENCES	226
CHAPTER 5	
DISPERSION AND COALESCENCE	231
5.1 INTRODUCTION	231
5.2 DISPERSION AND PHASE CONTINUITY IN A BINARY SYSTEM.....	231
5.3 COALESCENCE IN A BINARY SYSTEM	233
5.3.1 Drop-Interface Coalescence.....	233
5.3.2 Drop-Drop Coalescence.....	234
5.3.3 Factors Affecting Coalescence	235
5.4 DISPERSION, COALESCENCE, AND THE SOLVENT EXTRACTION PROCESS	239
5.5 REFERENCES	250
CHAPTER 6	
EQUIPMENT IN SOLVENT EXTRACTION PROCESSING.....	253
6.1 INTRODUCTION	255
6.2 EQUIPMENT CLASSIFICATION.....	256
6.3 DESIGN AND SCALE-UP	257
6.4 EQUIPMENT	259
6.4.1 Mixer Settlers.....	259
6.4.2 In-Line Mixers	296
6.4.3 Columns and Design	307
6.4.4 Non-Agitated Columns	318
6.4.5 Agitated Columns	324
6.4.6 RTL (Graesser) Contactor.....	382
6.4.7 Centrifugal Contactors	384
6.4.8 Other Contactors	387
6.4.9 Considerations in the Design of New Columns (and other contactors)	387
6.5 COMPARISON OF CONTACTORS	388

6.6	CONTACTOR SELECTION	396
6.6.1	General Considerations	396
6.6.2	Physical Properties of the System	398
6.6.3	Engineering Considerations	399
6.6.4	Process Control and Instrumentation	400
6.7	CONCLUSIONS	401
6.8	Nomenclature	401
6.9	BIBLIOGRAPHY	404
6.10	NOTES	406
6.11	REFERENCES	407

CHAPTER 7

SOLVENT LOSS, RECOVERY, AND

ENVIRONMENTAL CONSIDERATIONS..... 421

7.1	INTRODUCTION	422
7.2	SOLUBLE LOSSES	423
7.2.1	Introduction	423
7.2.3	Carboxylic Acids	425
7.2.3	Alkylphosphorus Acids	428
7.2.4	Amines	430
7.2.5	Chelating Extractants	431
7.2.6	Tri-Butyl Phosphate	432
7.2.7	Solubility of Modifiers	434
7.2.8	Solubility of Diluents	434
7.3	REAGENT STABILITY AND DEGRADATION	435
7.4	VOLATILISATION	438
7.5	ENTRAINMENT	439
7.6	CRUD	441
7.6.1	Introduction	441
7.6.2	Description of Some Cruds	441
7.6.3	Causes of Crud	446
7.6.4	Treatment and Solvent Recovery	457
7.6.5	Crud Prevention	458
7.7	EXTRACTANT LOSSES	463
7.8	SOLVENT LOSS IN SOLVENT-IN-PULP PROCESSES	464
7.9	OTHER PROBLEMS ASSOCIATED WITH SOLVENT LOSS	465
7.10	RECOVERY OF ORGANICS FROM AQUEOUS SOLUTIONS	466
7.11	ENVIRONMENTAL CONSIDERATIONS	471
7.11.1	Toxicity of Some Petrochemicals	471
7.11.2	Reagent Biodegradability	477
7.11.3	Effects of Soluble Metal-Extractant Complexes	479
7.12	REFERENCES	480

CHAPTER 8	
SAMPLING AND ANALYSIS	489
8.1 INTRODUCTION	489
8.2 SAMPLING.....	491
8.2.1 Sampling the Aqueous Phase.....	491
8.2.2 Sampling the Organic Phase	493
8.2.3 Sampling Slurries.....	494
8.2.4 Sampling of Crud.....	495
8.3 ANALYSIS OF THE AQUEOUS FEED	496
8.4 ANALYSIS OF THE ORGANIC PHASE	497
8.4.1 Determination of Extractants	498
8.5 ANALYSIS OF RAFFINATES	527
8.5.1 Determination of Extractants in Raffinates	528
8.6 THE DETERMINATION OF METALS	540
8.6.1 Determination of Metals in the Organic Phase	540
8.6.2 Determination of Metals in the Aqueous Phase.....	541
8.7 DISCUSSION.....	542
8.8 REFERENCES	545
APPENDICES	553
Appendix I – The Nomenclature Of Solvent Extraction.....	553
Appendix II – Conversion Units	556
INDEX.....	557
